

Simons West Edmonton Mall - Edmonton Alberta

The opening of Simons West Edmonton Mall in 2012 is the first store outside of Quebec for this Canadian Icon. Allstar working closely with the General Contractor, sub-trades and consultants 20k was contracted to supply and install an upscale paging and music system in this massive retail outlet.

This system consists of over 300 speakers covering sixty-plus zones controlled by Medialon Show & Media Control. Speakers are from Meyer Sound, D&B and JBL, with power and processing from Crown and BSS.
